

AAMI

Advancing Safety in Health Technology

Membership Brochure

About AAMI

AAMI is the world's leading organization for advancing the development, management, and use of safe and effective healthcare technology. Founded in 1967, AAMI membership is composed of a diverse group of over 11,000 healthcare technology professionals. Through standards, training, conferences, publications, and other resources, AAMI is shaping the future of health technology.

11,000+ Members

5,000+ Certifications

650+ Standards Documents

230 Standards Committees

Since **1967**

Membership Overview

AAMI members receive a wealth of perks and access to timely news and information. AAMI's benefits and services help members stay informed of technology developments, improve their professional skills, and enhance patient safety.

Member benefits include:

- ✓ Participation on standards committees*
- ✓ Deep discounts on all AAMI standards, training, events, and educational offerings
- ✓ Timely industry news and trends
- ✓ Access to HTM resources and working groups
- ✓ Significant discounts on certification exams and renewals
- ✓ Networking opportunities, including members-only discussion groups
- ✓ Professional development resources

*Standards participation policies apply

AAMI offers a variety of membership options:

- **Corporate Membership:** Medical device manufacturers, consulting firms, and others in the health technology field.
- **Institutional Membership:** Healthcare delivery organizations, professional societies, colleges, universities, and technical schools.
- **Individual Membership:** Individual health technology professionals, including students and retirees.

Shape the Future of Healthcare Technology with AAMI Standards

Standards, Technical Information Reports (TIRs), and other documents are developed by more than 230 technical committees and working groups representing a wide variety of stakeholders in the health technology industry including: manufacturing, testing, distribution, servicing, academia, healthcare institutions, clinicians, and governmental agencies.

AAMI is an accredited standards development organization by the American National Standards Institute (ANSI) which signifies that the procedures we use to develop American National Standards meet ANSI's essential requirements for openness, balance, consensus, and due process.

AAMI also administers numerous international technical committees of the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) and is accredited by ANSI to administer 17 U.S. Technical Advisory Groups that develop and coordinate U.S. positions on ISO and IEC standardization activities.

Critical Issues Include:

- Anaesthetic and Respiratory Equipment
- Artificial Intelligence
- Biological Evaluation
- Clinical Alarms
- Cloud Computing
- Combination Products
- Cybersecurity
- Electromedical Devices
- Health Information Technology
- Human Factors/Usability
- Infusion Devices
- IT/Device Security
- Medical Equipment Management
- Networked Devices/ Wireless
- Sterilization
- Quality Systems

AAMI Training, Education & Events

AAMI offers a comprehensive roster of face-to-face, virtual, and eLearning educational options.

AAMI Training

aami.org/training

As the “go-to” education resource for busy professionals, AAMI Training offers a variety of learning options to keep you up to date with issues and trends. With numerous public training options as well as private training customized to fit your needs with an expert industry faculty at your location, AAMI Training enables professionals from device manufacturers and healthcare delivery organizations to plan, manage, and optimize their educational needs and professional development.

AAMI neXus

aami.org/events

AAMI neXus is the premier international event for those who drive medical device standards development, adoption, and application. neXus combines presentations from the industry through leaders in the areas of quality, sterility assurance, and more with hands-on training and updates needed to put standards to work for you.

AAMI eXchange

aami.org/exchange

AAMI eXchange is the premier event for healthcare technology management professionals. Join us for learning opportunities, connecting with your peers, and exploring the latest innovations, upgrades, and advances in healthcare technology.

**AAMI members receive significant discounts on all AAMI training and events!
Members also get complimentary access to HTMLive! webinars.**

AAMI ARRAY

Access to a complete range of standards, technical information reports, industry experts, peer-reviewed research, videos, expert commentary, and stories from the field in one searchable central hub of knowledge.

AAMI, ISO, and IEC Standards

AAMI is a leading developer of consensus standards to enhance healthcare technology, developing and maintaining critical guidance for device reprocessing, materials compatibility, quality management, cloud computing, artificial intelligence, and much more. A champion of standards harmonization, AAMI consistently publishes U.S. national adoptions of international standards, making sure you can stay responsibly informed.

Biomedical Instrumentation & Technology:

AAMI's award-winning peer-reviewed journal *BI&T* is the premier source of practical guidance, research, and analysis for those working in the health technology, medical device standards, and sterilization fields. *BI&T* continuously publishes content so you don't have to wait for a full issue to read about the latest innovations and analysis you care about.

AAMI Pressroom

See what the press and media have their eye on with AAMI's pressroom. Press releases and abridged AAMI News articles can be found here alongside announcements from AAMI event exhibitors and sponsors. To learn more, go to pressroom.aami.org

AAMI Newsletters

AAMI's topic-focused newsletters deliver original content and breaking news to your fingertips every week. With insightful columns and video interviews with AAMI subject matter experts, AAMI Newsletters elevate your awareness of industry and regulatory news, introducing you to the brightest minds in our field.

HTM Resources

AAMI membership unlocks the door to dozens of free-to-member HTM resources including live and archived *HTMLive!* webinars (an easy way to earn ACI CEUs), our *HTM Levels Guide* online assessment tool, and over 20 expert-developed HTM resource documents to empower your team's success, standardization and advancement.

Drive Innovation

Have a voice and a vote at the standards table by participating on a committee developing the national HTM standards that will lead tomorrow's healthcare delivery regulation. Opportunities include committees on Medical Equipment Management, Alternative Equipment Maintenance, HTM Education Programs, and more.

The AAMI Certification Institute (ACI) provides focused certification programs for healthcare technology management and sterilization industry professionals seeking to grow professionally.

ACI AAMI
Certification
Institute

Certifications include:

- Certified Healthcare Technology Manager (CHTM)
- Certified Associate in Biomedical Technology (CABT®)
- Certified Biomedical Equipment Technician (CBET®)
- Certified Radiology Equipment Specialist (CRES®)
- Certified Industrial Sterilization Specialist (CISS)
 - Ethylene Oxide (CISS-EO)
 - Moist Heat (CISS-MH)
 - Radiation (CISS-RAD)
