

STANDARDS UPDATE

Nominations are open for the 2025 AAMI and AAMI Foundation Awards, including the AAMI Standards Awards. The deadline for submitting nominations is January 16, 2025.

For details on the selection criteria and required documents for nominations, please refer to the following links:

[AAMI Awards](#)

- [AAMI Standards Developer Award](#): Presented to up to five individuals who have made significant contributions to the development or revision of an AAMI standard or international standard (ISO or IEC).
- [AAMI Technical Committee Award](#): Recognizes exceptional efforts of an AAMI technical committee. Up to two AAMI technical committees are honored annually for their outstanding contributions to standards development.
- [AAMI Sterilization Science Award](#): Presented to one recipient for significant and sustained contributions to advancing healthcare sterilization, sterility assurance, and contamination control.

Contact awards@aami.org with any questions you might have.

AAMI Standards Insider

AAMI's Standards Insider has been revamped. Please view our quarterly video snippets for news and updates about AAMI's standards program and portfolio [here](#). If there are any topics that you would like the Standards team to address, please reach out to Standards@aami.org.

NATIONAL STANDARDS

AAMI Call for Comments

If you would like to comment on one of the draft documents listed below, contact the individual indicated by email to receive a PDF copy of the draft. These copies are free. Published documents proposed for reaffirmation can be purchased from the [AAMI Store](#).

Comments due December 30, 2024

AAMI HE75-202X, Human Factors Engineering – Design of Medical Devices (revision of HE75:2009) (Revision). This standard provides detailed human factors engineering (HFE) design guidance to those who are responsible for HFE work within medical device companies. It contains extensive design guidance, examples, checklists, and case studies. Contact [Rachel Ann Porter](#)

AAMI/ISO 15882:2008/(R)2013, Sterilization of health care products — Chemical indicators — Guidance for selection, use and interpretation of results (reaffirmation of national adoption). This document provides guidance for the selection, use and interpretation of results of chemical indicators used in process definition, validation and routine monitoring and overall control of sterilization processes. AAMI/ISO 15882:2008 applies to indicators that show exposure to sterilization processes by means of physical and/or chemical change of substances, and which are used to monitor one or more of the variables required for a sterilization process. These chemical indicators are not dependent for their action on the presence or absence of a living organism. Contact: [Tommy Kim](#).

AAMI ST65:2008/(R)2018, Processing of reusable surgical textiles for use in health care facilities (reaffirmation of standard). This standard provides guidelines for the proper handling, processing, and preparation of reusable surgical textiles either on-site or off-site for use in health care facilities. This

AAMI Standards Monitor Online

6 December 2024

recommended practice specifically addresses design criteria for functional work areas; staff qualifications, education, training, dress codes, and other personnel considerations; receiving and handling of soiled surgical textiles; laundry processing considerations; transport of both soiled and clean surgical textiles; installation, care, and maintenance of laundry equipment; quality control; and regulatory considerations. Definitions of terms and a bibliography are also provided. Contact: [Tommy Kim](#).

New Work

Initiation of the following New Work Items have been approved and added to AAMI's standards work program in the past three months. Directly and materially interested parties wishing to receive more information or to submit comments are to contact the individual indicated by email.

AAMI PC-WG01, Transvenous Cardiac Leads Working Group. The working group is developing the following two new AAMI Standards (Contact: [Mike Miskell](#)):

- *AAMI PC85; Requirements for Fatigue Performance of Cardiac Rhythm Management Leads.* This standard outlines requirements for characterizing the fatigue performance of cardiac leads based on benchtop fatigue testing and bending stiffness measurements, focusing on conductor integrity. It excludes polymer and elastomeric components, bonds, biodegradation, and corrosion. Methods are provided for measuring lead bending stiffness and fatigue strength in different regions, for preconditioning leads, and for accepting fatigue performance through comparison with proven designs or using a Bayesian model to predict survival rates based on lead stiffness.
- *AAMI PC125; Implantable leads—Perforation propensity—Requirements and test methods.* This standard establishes a method to assess the perforation propensity of permanently implantable cardiac pacing and defibrillation leads for transvenous use in the right atrium or ventricle, excluding preformed “J”-shaped and left bundle branch area pacing leads. It focuses on the acute phase post-implantation, prior to fibrotic encapsulation, and does not address all aspects of perforation propensity, such as implant technique or patient-specific factors. The methods and criteria are based on conventional leads and may not apply to novel designs or unique clinical applications.

AAMI RD, Renal Disease and Detoxification Committee. The committee is developing a new AAMI Technical Information Report (TIR123); *User Considerations - Design of Activated Carbon Systems for Hemodialysis with Non-Continuous Flow – Empty-Bed Contact Time (EBCT) Calculation.* This TIR provides guidance for how the non-continuous flow of fluids impacts the calculation of EBCT and addresses other considerations when working with filters in this type of system. EBCT is a calculated value which assumes continuous flow through the carbon bed. This TIR will provide guidance on the application of ISO 23500 and educate users in clinics. Contact: [Jill Zajac](#)

AAMI Standards Monitor Online

6 December 2024

AAMI ST-WG11, General Criteria for Sterilization Processes and Sterilizing Equipment Working Group.

The working group will be developing a series of AAMI Technical Information Reports (AAMI TIR124-X); *Guidance on transferring health care products between gas or vapor sterilization modalities*. These series provide guidance on alignment of various gas and vapor sterilization modalities with ISO 14937 and other relevant standards for industrial sterilization (not health care; not decontamination) where there is a gap in guidance relative to the validation, routine control, biological indicators and sterilant residuals for the modality. Examples of such modalities can be found in AAMI TIR17. Each part of this series will focus on a specific modality. Contact: [Gigi Golriz](#).

AAMI ST-WG61, Chemical Sterilants Hospital Practices Working Group. The working group will be developing a new AAMI Technical Information Report (AAMI TIR121); *Guidance on cleaning and disinfection of patient care equipment in patient care areas to render safe for handling and next patient use*. This TIR provides guidance to health care personnel who perform cleaning and low-level and intermediate level disinfection of patient care equipment outside of the sterile processing area. Excludes devices and materiel addressed by ANSI/AAMI ST79 and ANSI/AAMI ST91 and environmental surfaces. Contact: [Tommy Kim](#)

AAMI ST-WG96, Compatibility of Materials Subject to Sterilization Working Group. The working group will be developing a new AAMI Technical Information Report (AAMI TIR122); *Considerations for Material Retention of Sterilant Residuals in Ethylene Oxide Sterilization*. This TIR provides: fundamental background on factors that may affect sterilant residual retention by device materials; data showing relative retention of sterilant residuals retained by various materials after processing in ethylene oxide; guidelines on how to address the impact of medical device material selection or material changes on the potential for sterilant residual retention; and provides data on the impact of cycle attributes and aeration conditions (e.g. temperature, vacuum changes, etc.) on retained EO residuals. It will clarify differences in the effects of EO retention by materials between occupational or environmental EO exposure and exposure to patients through sterilized devices. Contact: [Gigi Golriz](#).

Project Initiation Notice

The following projects have been initiated by AAMI in the past three months. Directly and materially interested parties wishing to receive more information or to submit comments are to contact the individual indicated by email.

REVISION! AAMI TIR12:202X, Designing, testing, and labeling medical devices intended for processing by health care facilities: A guide for device manufacturers. Contact: [Gigi Golriz](#).

REVISION! AAMI TIR57:202X, Principles for medical device security – Risk management. Contact: [Rose Kodzwa](#)

REVISION! AAMI EQ89:202X, Guidance for the use of medical equipment maintenance strategies and procedures. Contact: [Mike Miskell](#)

REVISION! AAMI EQ93:202X, Medical equipment management—Vocabulary used in medical equipment programs. Contact: [Mike Miskell](#)

Consensus Body Members Needed

The committees listed below are seeking new members in the indicated stakeholder interest category to participate in the development of their documents. Definitions of the various stakeholder groups are:

Industry: *A member of a consensus body who, as an individual or organizational representative, is involved in the commercial production, promotion, sale, use or distribution of materials, products, systems, or services covered in the scope of technical documents developed by AAMI shall be classified as an Industry Interest stakeholder. Individuals in this interest category include manufacturers, those involved in supply chains, employees of test labs or commercial labs, industry consultants, etc.*

User: *A member of a consensus body who, as an individual or organizational representative, purchases, utilizes or receives the materials, products, systems, or services covered in the scope of technical documents developed by AAMI in the delivery of healthcare shall be classified as a User Interest stakeholder. Individuals in this interest category include clinicians, employees or representatives of Healthcare Delivery Organizations, clinical consultants, patients, etc.*

Regulatory: *A member of a consensus body who, as an individual or organizational representative, is involved in the regulation of the materials, products, systems, or services covered in the scope of the technical documents developed by AAMI shall be classified as a Regulatory Interest stakeholder. Individuals in this interest category would include those representing federal, state, local, foreign, or other government entities.*

General interest: *A member of a consensus body who, as an individual or organizational representative, has a general direct and material interest in the materials, products, systems, or services covered in the scope of the technical documents developed by AAMI and who does not fit into any of the preceding categories shall be classified as a General Interest stakeholder. Individuals in this category would include noncommercial academicians, noncommercial researchers, patient or consumer advocates, representatives of accrediting organizations, representatives of other organizations, etc.*

AAMI Standards Monitor Online

6 December 2024

Other Interest: *A member who does not fit into any of the preceding interest categories but who still has an identifiable material interest in, or specialized knowledge of the materials, products, systems, or services covered in the scope of technical documents developed by AAMI in the delivery of healthcare shall be classified as an Other Interest stakeholder. The particular interest shall be declared and documented.*

Please contact the staff person indicated for more information on how to join.

AAMI BE-WG02, Degradation aspects related to biological testing Working Group. The working group is seeking user, regulatory, and general interest members to participate in the development of ISO 10993-9:2019/ED.3, *Biological evaluation of medical devices — Part 9: Framework for identification and quantification of potential degradation products* and ISO 10993-15:2019/ED.2, *Biological evaluation of medical devices — Part 15: Identification and quantification of degradation products from metals and alloys*. Contact: [Rose Kodzwa](#)

AAMI BE-WG08, Irritation and sensitization Working Group. The working group is seeking user, regulatory, and general interest members to participate in the expedited adoption of ISO 10993-10:2021, *Biological evaluation of medical devices — Part 10*. Contact: [Rose Kodzwa](#)

AAMI BE-WG19, Tissue Product Safety Working Group. The working group is seeking industry, user, regulatory, and general interest members for the newly formed working group to provide input on ISO/TC/194/WG 19 activities. Contact: [Rose Kodzwa](#)

AAMI BG, Blood/Gas Exchange Device Committee. The committee is seeking, user, regulatory, and general interest members to participate in the development of ISO 18193:2021, *Cardiovascular implants and artificial organs — Cannulae for extracorporeal Circulation Amendment 1* and to provide input on ISO TC150/SC2/WG4 activities Contact: [Jill Zajac](#)

AAMI BP, Blood Pressure Monitoring Committee. The committee is seeking regulatory, user and general interest members to participate in the reaffirmation and future revision of AAMI BP22-1994 (R2016), *Blood pressure transducers*. Contact: [Ladan Bulookbashi](#)

AAMI CI, Cochlear Implants Committee. The committee is seeking industry, regulatory, and general interest members to participate in the reaffirmation and future revision of AAMI CI86-2017, *Cochlear implant systems—Requirements for safety, functional verification, labeling and reliability reporting*. Contact: [Mike Miskell](#)

AAMI CP, Combination Products Committee. The committee is seeking user, regulatory, and general interest/regulator members to contribute to the development and review of various TIRs Contact: [Jill Zajac](#)

AAMI Standards Monitor Online

6 December 2024

AAMI CV, Cardiac Valves Committee. The committee is seeking user, regulatory, and general interest members to participate in user input on the US position of amendments to ISO 5840-1:2021, *Cardiovascular implants—Cardiac valve prostheses—Part 1: General requirements*; ISO 5840-2:2021, *Cardiovascular implants—Cardiac valve prostheses—Part 2: Surgically implanted heart valve substitutes*; and ISO 5840-3:2021, *Cardiovascular implants—Cardiac valve prostheses—Part 3: Heart valve substitutes implanted by transcatheter techniques*; and the US adoption of AAMI/ISO 5910: 2024, *Cardiovascular implants and extracorporeal systems—Cardiac valve repair devices*. Contact: [Jill Zajac](#)

AAMI DP, Medical Device Particulates Committee. The committee is seeking user, industry, regulatory and general interest categories to participate in review and reaffirmation of AAMI TIR42:2021; *Evaluation of particulate associated with vascular medical devices* Contact: [Jill Zajac](#)

AAMI DPC-10, Needles Working Group. The working group is seeking user, industry, and general interest/regulator members to contribute to the development of the U.S. positions towards the revisions of ISO 9626:2016, *Stainless steel needle tubing for the manufacture of medical devices* and ISO 7864:2016, *Sterile hypodermic needles for single use*. Contact: [Sam Alameda](#)

AAMI EQ-WG01, HTM Program Management Working Group. The working group is seeking regulatory, industry, user, and general interest members to participate in the revision of AAMI EQ89:2015/Ed.1, *Guidance for the use of medical equipment maintenance strategies and procedures*. Contact: [Mike Miskell](#)

AAMI EQ-WG02, Servicing Vocabulary Working Group. The working group is seeking regulatory, industry, user, and general interest members to participate in the revision of AAMI EQ93:2019/Ed.1, *Medical equipment management - Vocabulary used in medical equipment programs*. Contact: [Mike Miskell](#)

AAMI EQ-WG03, Technology Acquisition Working Group. The working group is seeking regulatory, industry, user, and general interest members to participate in the development of AAMI EQ94:202X/Ed.1, *Healthcare technology acquisition*. Contact: [Mike Miskell](#)

AAMI EV-WG13, Lens Removal and Vitrectomy Devices Working Group. The working group is seeking additional members from regulatory, user and general interest categories to participate in the identical adoption project for IEC 80501-2-58:2024, *Medical electrical equipment - Part 2-58: Particular requirements for the basic safety and essential performance of lens removal devices and vitrectomy devices for ophthalmic surgery*. Contact: [Ladan Bulookbashi](#)

AAMI HF, High Frequency Therapeutic Device Committee. The committee is seeking regulatory, user and general interest members to participate in the adoption project for IEC 60601-2-2:2017/AMD1:2023, *Amendment 1 - Medical electrical equipment - Part 2-2: Particular requirements for the basic safety and*

AAMI Standards Monitor Online

6 December 2024

essential performance of high frequency surgical equipment and high frequency surgical accessories.

Contact: [Ladan Bulookbashi](#)

AAMI HIT-WG01, Health IT Risk Management Working Group. The working group is seeking user, general interest, and regulatory members to participate in the development of AAMI HIT1000-3/Ed.1, *Safety and effectiveness of health IT software and systems—Part 3: Application of risk management.*

Contact: [Rose Kodzwa](#)

AAMI HIT-WG02, Health IT Quality Systems Working Group. The working group is seeking user, general interest, and regulatory members to participate in the development of AAMI HIT1000-2/Ed.1, *Health IT software and systems—Part 2: Application of quality systems principles and practices.* Contact: [Rose Kodzwa](#)

[Kodzwa](#)

AAMI HIT-WG03, Health IT Usability Working Group. The working group is seeking user, general interest, and regulatory members to participate in the development of AAMI HIT1000-4/Ed.1, *Safety and effectiveness of health IT software and systems—Part 4: Application of human factors engineering.*

Contact: [Rose Kodzwa](#)

AAMI MC, Mechanical Circulatory Support Systems Committee. The committee is seeking user and general interest/regulatory members to participate in the development of documents under ISO/TC150/SC2/WG2 including the revision of ISO 14708-5:2020, *Implants for surgery — Active implantable medical devices — Part 5: Circulatory support devices.* Contact: [Jill Zajac](#)

AAMI NS-WG03, Transcutaneous electrical stimulator Working Group. The working group is seeking industry, regulatory, user and general interest members to participate in the reaffirmation and future revision of AAMI NS4-2013 (R2017), *Transcutaneous electrical nerve stimulators.* Contact: [Ladan Bulookbashi](#)

[Bulookbashi](#)

AAMI PC-WG01, Transvenous Cardiac Leads Working Group. The working group is specifically looking for additional members to represent user, general, and regulatory interest categories to participate in development of two new AAMI standards: AAMI PC86, *Requirements for Fatigue Performance of Cardiac Rhythm Management Leads;* and AAMI PC125, *Implantable leads—Perforation propensity—Requirements and test methods.* Contact: [Mike Miskell](#)

AAMI PC-WG02, EMC Test Protocols for Pacemakers, ICDs & CRTs Working Group. The working group is specifically looking for additional members to represent user, general, and regulatory interest categories to participate in reaffirmation of AAMI/ISO 14117:2019, *Active implantable medical devices—Electromagnetic compatibility—EMC test protocols for implantable cardiac pacemakers, implantable cardioverter defibrillators and cardiac resynchronization devices.* Contact: [Mike Miskell](#)

AAMI PC-WG03, Pacemaker & ICD MRI Compatibility Working Group. The working group is seeking user, regulatory, general interest members to participate in the project to develop the first amendment

AAMI Standards Monitor Online

6 December 2024

to ANSI/AAMI PC76:2021, *Active implantable medical devices - Requirements and test protocols for safety of patients with pacemakers and ICDs exposed to magnetic resonance imaging*. Contact: [Mike Miskell](#)

AAMI RB, Robotics Committee. The committee is seeking additional members from regulatory, user and general interest categories to participate in the identical adoption projects for IEC 80601-2-77:2019/AMD1:2023, *Amendment 1 - Medical electrical equipment - Part 2-77: Particular requirements for the basic safety and essential performance of robotically assisted surgical equipment*, and IEC 80601-2-78:2019/AMD1:2024, *Amendment 1 - Medical electrical equipment - Part 2-78: Particular requirements for basic safety and essential performance of medical robots for rehabilitation, assessment, compensation or alleviation*. Contact: [Ladan Bulookbashi](#)

AAMI RD, Renal Disease and Detoxification Committee. The committee is specifically looking for additional members to represent user, general, and regulatory interest categories to participate in the development of a new Technical Information Report on *User Considerations - Design of Activated Carbon Systems with Non-Continuous Flow – Empty-Bed Contact Time (EBCT) Calculation*, and identical adoption of the ISO 23500 parts 1-5:2024, *Preparation and quality management of fluids for haemodialysis and related therapies standards* and identical adoption of ISO 8637-1 through -3, *Extracorporeal systems for blood purification series standards*. Contact: [Jill Zajac](#)

AAMI SM-WG03, Interoperability Working Group. The working group is seeking general interest, regulatory, and users. The committee is developing a new American National Standard, AAMI SW114 - *Remote control of medical devices: Lung Ventilators and Intravenous (IV) Infusion Pumps*. Contact: [Rose Kodzwa](#)

AAMI SM-WG05, Medical Device Security Working Group. The working group is seeking general interest, regulatory, and users to participate in the revisions of AAMI TIR57:2016/(R)2023, *Principles for medical device security—Risk Management* and a new consensus report (CR) with the title *Security Risk Estimation for Medical Devices*. Contact: [Rose Kodzwa](#)

AAMI SM-WG10, Cloud Computing Working Group. The working group is seeking user, general interest, and regulatory members to participate in the development of a new TIR, AAMI TIR115: *Cloud – Guidance for the appropriate use of public cloud computing to enable medical device functions*. Contact: [Rose Kodzwa](#)

AAMI SP, Sphygmomanometer Committee. The committee is seeking regulatory, and general interest members to participate in the identical adoption project for ISO 81060-3:2022/Ed.1, *Non-invasive sphygmomanometers — Part 3: Clinical investigation of continuous automated measurement type*. Contact: [Ladan Bulookbashi](#)

AAMI Standards Monitor Online

6 December 2024

AAMI ST-WG06, Chemical Indicators Working Group. The working group is seeking general interest and regulatory/government members to participate in the reaffirmation AAMI/ISO 15882:2008/(R)2013, *Sterilization of health care products — Chemical indicators — Guidance for selection, use and interpretation of results*. Contact: [Tommy Kim](#).

AAMI ST-WG08, Microbiological methods Working Group. The working group is seeking general interest, regulatory, and user members to participate in the development of AAMI TIR52/Ed.2, *Environmental monitoring for terminally sterilized healthcare products* and the reaffirmations of AAMI/ISO 11737-1, *Sterilization of health care products — Microbiological methods — Part 1: Determination of a population of microorganisms on products* and AAMI/ISO TIR22456:2022, Ed.1, *Sterilization of health care products—Microbiological methods—Guidance on conducting bioburden determinations and tests of sterility for biologics and tissue-based products*. Contact: [Gigi Golriz](#).

AAMI ST-WG11, General Criteria for Sterilization Processes and Sterilizing Equipment Working Group. The working group is specifically looking for additional members to represent user, general, and regulatory interest categories to participate in development of a new series of Technical Information Reports (AAMI TIR124-X); *Guidance on transferring health care products between gas or vapor sterilization modalities*. Contact: [Gigi Golriz](#).

AAMI ST-WG42, Dry heat sterilization Working Group. The working group is seeking general interest, regulatory, and user members to contribute to participate in the reaffirmation of ANSI/AAMI ST40:2004/(R)2018, Ed. 2, *Table-top dry heat (heated air) sterilization and sterility assurance in health care facilities*. Contact: [Gigi Golriz](#).

AAMI ST-WG45, Processing of tattoo machines and accessories in healthcare settings Working Group. The working group is seeking industry, user, general interest, and regulatory members to participate in the development of AAMI TIR117/Ed.1, *Guidance for processing tattoo machines and accessories in the healthcare setting*. Contact: [Tommy Kim](#)

AAMI ST-WG61, Chemical Sterilants Hospital Practices Working Group. The working group is specifically looking for additional members to represent general and regulatory interest categories to participate in development of a new Technical Information Report (AAMI TIR121); *Guidance on cleaning and disinfection of patient care equipment in patient care areas to render safe for handling and next patient use*. Contact: [Tommy Kim](#)

AAMI ST-WG83, Reusable Surgical Textiles Processing Working Group. The working group is specifically looking for additional members to represent general, regulatory, and user interest categories to participate in the reaffirmation of AAMI ST65:2008/(R)2018, *Processing of reusable surgical textiles for use in health care facilities*. Contact: [Tommy Kim](#)

AAMI ST-WG94, Rigid sterilization container systems Working Group. The working group is seeking general interest, regulatory, and user members to participate in the revision of ANSI/AAMI

AAMI Standards Monitor Online

6 December 2024

ST77:2013/(R)2018, Ed.2, *Containment devices for reusable medical device sterilization*. Contact: [Gigi Golriz](#).

AAMI ST-WG96, Compatibility of Materials Subject to Sterilization Working Group. The working group is specifically looking for additional members to represent user, general, and regulatory interest categories to participate in development of a new Technical Information Report (AAMI TIR122); *Considerations for Material Retention of Sterilant Residuals in Ethylene Oxide Sterilization*. Contact: [Gigi Golriz](#).

AAMI TIB, Transfusion, Infusion, and Injection, and Blood Processing Equipment for Medical and Pharmaceutical Use Committee. The committee and its affiliated working groups are seeking user and general interest members to participate in developing the U.S. position towards documents under development in ISO/TC 76, *Transfusion, infusion and injection, and blood processing equipment for medical and pharmaceutical use*, and other projects. Contact: [Sam Alameda](#)

AAMI VI, Cardiovascular Absorbable Implants Committee. The committee is seeking additional members in user, regulatory and general interest categories to participate in the development of the U.S. position towards documents under ISO/TC150/SC2/WG7 including the systematic review of ISO/TS 17137:2021, *Cardiovascular implants and extracorporeal systems — Cardiovascular absorbable implants* Contact: [Jill Zajac](#)

AAMI VP, Vascular Prostheses Committee. The committee is specifically seeking user, industry, and general interest/regulator members to participate in the revision of ISO 7198:202x, *Cardiovascular implants and extracorporeal systems—Vascular prostheses—Tubular vascular grafts and vascular patches* Contact: [Jill Zajac](#)

UPCOMING MEETINGS

[AAMI Committees and U.S. TAGs](#)

Open meetings of AAMI committees and U.S. Technical Advisory Groups (TAGs) are listed here and at the AAMI website ([Standards Monitor Online](#)). Note: If you plan to attend a meeting, please reach out to the committee staff liaison listed below or contact the AAMI Standards Department at (standards@aami.org) indicating the name and date of the meeting.

December 2024

AAMI ST-WG06, Chemical Indicators Working Group. (open meeting) 06 December 2024, 13:00 to 14:00h EST, web meeting. The working group will discuss ISO/NP TS 25443 and reaffirmation of ANSI/AAMI/ISO 11140-1, 3, 4, and 5. Contact: [Tommy Kim](#)

AAMI Standards Monitor Online

6 December 2024

AAMI AR, Anaesthetic and respiratory committee (open meeting) 06 December 2024, 15:00 to 16:00h EST, web meeting. The committee will discuss upcoming work for the committee, international projects and meetings planned. Contact: [Colleen Elliott](#)

AAMI CP, Combination Products Committee. (open meeting) 09 December 2024, 14:30 to 16:00h EST, web meeting. The committee will discuss new work item proposals and upcoming work for the committee. Contact: [Jill Zajac](#)

AAMI CI, Cochlear Implants Committee. (open meeting) 16 December 2024, 11:00h to 14:00h EST, web meeting. The WG will meet to discuss the reaffirmation ballot for AAMI CI86:2017 and propose the US position and comments for the systematic review of ISO 14708-7:2019. Contact: [Mike Miskell](#)

AAMI EQ-WG01, HTM Program Management Working Group. (open meeting) 18 December 2024, 13:30h to 16:30h EST, web meeting. The WG will meet for project development and timeline planning. Contact: [Mike Miskell](#)

January 2025

AAMI TIB-WG04, Elastomeric parts, components and packaging Working Group. (open meeting) 8 January 2025, 10:00h to 11:00h EST, web meeting. The WG will meet virtually the 1st Wednesday of every month, from 10:00h to 11:00h EST, to discuss and draft CR514, *Guidance for Closed System Transfer Device Testing with Hazardous Drugs (CSTD)*. Contact: [Sam Alameda](#)

AAMI EQ-WG02, Servicing Vocabulary Working Group. (open meeting) 14 January 2025, 13:30h to 15:30h EST, web meeting. The WG will meet to review progress for development of the first working draft for the revision of AAMI EQ93. Contact: [Mike Miskell](#)

AAMI PC-WG03, Pacemaker & ICD MRI Compatibility Working Group. (open meeting) 16 January 2025, 10:00h to 11:30h EST, web meeting. The WG meets monthly to discuss revisions to ANSI/AAMI PC76:2021. Contact: [Mike Miskell](#)

February 2025

AAMI EQ-WG02, Servicing Vocabulary Working Group. (TENTATIVE) (open meeting) 17 February 2025, 11:00h to 12:30h EST, web meeting. The WG will meet to review progress for development of the first working draft for the revision of AAMI EQ93. Contact: [Mike Miskell](#)

INTERNATIONAL STANDARDS

Information on draft international standards under ballot can be found in [ANSI Standards Action](#).

International Committee and Working Group Meetings

AAMI Standards Monitor Online

6 December 2024

Call or email the indicated staff person at AAMI for more information about upcoming international standards meetings.

January 2025

ISO/TC 121/SC3, Respiratory devices and related equipment for patient care (closed meeting). Auckland, NZ, 20 and 24 January, 09:00h to 17:00h daily local time. Contact: [Colleen Elliott](#)

February 2025

ISO/TC 121/SC2, Airway devices and related equipment (closed meeting). London, UK, 4-5 February, 09:00h to 17:00h daily local time. Contact: [Colleen Elliott](#)

May 2025

ISO/TC 121, Anaesthetic and respiratory equipment, and affiliated SC and (J)WG meetings. (closed meetings). Paris France. 12 – 16 May, 09:00h to 17:00h daily local time. Contact: [Colleen Elliott](#)

November 2025

IEC/TC 62, Medical equipment, software, and systems, and affiliated SC and (J)WG meetings. (closed meetings). Milan, Italy, (Tentatively 3 – 14 November), 09:00h to 17:00h daily local time. Contact: [Colleen Elliott](#) or [Ladan Bulookbashi](#)
